CHAPTER 31

**Mass Murder in the Rue Morgue, Clarksburg W. Va,
VAMC**

~OR~

**Killer VA Staff mass murderer ‘Nurse Graveyard’
remains on the prowl.**

Mass murders at Clarksburg VAMC W. Va, hospital shattered VA glass house of secrecy for an ongoing VA veteran genocide for over a century. In a spectacular VA ‘dog and pony show,’ A VA staff nurse pleaded guilty for 7 counts of murder hiding real numbers of 7-21 and more. This angel of mercy murdered hospitalized veterans sleeping in their beds and that went unnoticed for years? Who in hell are these fools trying to kid? The practice is endemic VA wide. WW2 did not end Nazis; the slime culture relocated and spawned to USA and set up corporations as VA & BIA to continue its evil. Nazi Dr ‘death’ Mengele would be proud of his US legacy under new management, Nazi VA Inc, America Division. Holocaust Nazi concentration camp doctor Joseph Mengele, nicknamed ‘Doctor Death’ well known for performing inhumane live human animal experiments on men, women and kids, once sadistically quipped that ‘...his Jewish victims were in total shock and disbelief at what he did to them.’ I understand that well from personally saying – in shock and disbelief – “I cannot believe what these VA people are doing to me!” **I could not believe watching a female, racist, misandrist, black, VA employee lose it and in a violent tirade scream and cuss at an aged, crippled, white man confined to a wheel chair only a few feet away from me in a local Loop 820 Ft. Worth TX VA clinic lobby.** The Vet was disoriented and confused and her actions made matters much worse. I moved to another part of the clinic during her bitch-shit temper tantrum thinking what in hells name am I doing in here?! Too bad I did not have an I phone. That video would’ve been a viral hit on the net. Moreover, racism runs rampant in North Texas VA Healthcare system and that clinic incident made a good example of it: a black woman blatantly verbally abusing a crippled white man in a wheel chair then screaming white racism? A tactic by corrupt govt is to project onto the opponent accusations of your dirty laundry first to distract onlookers. That VA employee was insane!! I could not get a name; she had her employee badge hidden in such a way that hid personal information. Seems that is how most all of them wear their company ID badges if

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

they wear them at all. Secrecy seems to be the motif at US Socialist, Nazi VA facilities hiding their crimes; just like Hitler's holocaust. Only after Germany fell did they come to light when allied forces and Russia surveyed the carnage hidden from prying eyes. After a video went viral on the Internet of a sick Vet lying on a VA, ER waiting room floor that hospital staff ignored for hours, VA tried to ban camera phones from their facilities to prevent people from recording such scenes and exposing them on public domain. Code of silent secrecy has kept incidents like nurse Mays murder rampage from the public for over a century. The video met with great public outcry and so did the ban. Subsequently, VA intent was obvious to hide Nazi activities in govt facilities. The agency's reactive damage control policy to stem more bad press served only to focus more public attention of an intention to cover up their crimes. The ban did not stay in effect very long and to smooth over that PR-SNAFU, it generously installed cell phone chargers in clinic and hospital waiting rooms for patients to use before & during appointments. People can't be recording activities when their devices are on the stationary charging stations. The American public has become quite aware of how badly government is and has been mistreating it, Military and Veterans. To counter the self-inflicted damage from spreading, DOD and VA monitor Internet for such 'disturbing content' and issues take down notices and other police state woke 'freedom of speech' censorship removing 'inappropriate, disturbing materials.' Expect that in more areas like social media censorship, soon. Such Nazi activities only make them look bad. VA also floods net with propaganda to drown out competing posts, too. Like an infection or virus kills everything including host virus. To counter that, Vets and supporters moved underground distributing their messages and are more active than ever spreading 'censored content' about the institution's abusive activities. Dissent always moves underground to escape censorship and suppression. That is what stopped US slavery, The mighty German armies in France and is destroying the US drug war black markets and legal-political-oligarchy injustice systems profiting from it. Never underestimate dissent of the down trodden masses. Gandhi comes to mind; Oskar Schindler, and Solzhenitsyn, true heroes, too.

VA, mass media, and Homeland censorship uses many sleazy methods to keep the public in darkness censoring truth in this country!! Homeland Security paints Veterans as terrorists while VA promotes that and vets as mental cases nobody should trust or contact to discredit and smear our integrity, which publicly reflected very badly on those agencies as another PR nightmare. The ruse is nothing new and in both cases boomeranged very badly on both agencies projecting the devil in them onto their scapegoats!! One reason why Vietnam Vets

**DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION
STATEMENT.**

and soldiers were disgraced and attacked was to discredit and smear our integrity so that no one would listen to or believe the truth of what happened in a country that US remains responsible for doing. 50 years ago we were smeared as violent, gun crazy, maniacal terrorists and still are, which scared the public into shunning us. **A lie is a lie even if everyone believes it. The Truth is Truth even when no one believes it – Adolf Hitler.** Vets have nearly, exclusively, killed more of them via suicide to end their pain and stigma as scapegoats of this country's disgrace than other people, which shows the lies behind such police state propaganda. In other words, this country has by proxy murdered more of us than otherwise and still does. When it gets to them sheeple might awaken. When a rare vet-shooting rampage occurs VA, lame-mass media, and govt present it to American people as if it is a pandemic event going on everywhere while using it to distract and hide its crimes against 'we the sheeple.' Vets gone wild shootings are extremely rare! And most of them are drugged up on mental neuropoisons by military docs on military bases and soldiers killing each other! Most mass shootings are civilians against civilians who are tanked up on neuro-poison MHC drugs triggering them insane same as they do to soldiers. Rarely are civilians involved in vet crimes at all! Contrast that to your local SWAT team activities wildly killing civilians, kids, pets, women, anyone in the way. This is why: an attack or guard dog is trained never to turn on its handlers or owners but rarely when they do; the dog is shot. Soldiers undergo that same brainwashing called Basic Military Training often kill or suicide before turning on their owners. The old mind is erased and a military person is programmed into s/he while a teenager fresh out of high school. Then they're drugged up to be a better killing machine and they go insane from the dope. The it's blame the gun, blame the person, not fix the cause!! That's the American way! Part of that is 'prime directive' to never attack the owners & handlers but obey them without question or reservation to kill an enemy. Soldiers in paradox to that prime directive often suicide first, aka self-destruct or turn the gun on self or on another soldier! Socialist government controls lame-mass media and scares you buttercup civilians against finding out the truth of what it is doing. This is your undoing BTW. Your willfully learned stupidity is your defeat. Therefore the Socialist government you support does the equivalent of staking decapitated heads at the Palace Entrance to scare you off from finding the truth that most honest veterans know and will tell you!!! The bought off Aunt Tim & Uncle Tom shill veterans lie because the state owns & pays them to do that. Same for their shill employees. The truthful veterans will tell you the truth! That is what classifying us as terrorists and gun totin, rootin, shootin, nutcase murderers is doing – scaring you away from learning the truth about this country and your government's perpetual war machines. As Bill said on his deathbed. When War correspondents published

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

‘My Lia Massacre’ in the US, Americans found out what they were really supporting in the Vietnam War; that they were guilty of murdering innocent peasant men, women and babies while staring at the bodies! That is what ended the Vietnam War! When onus came to US. America turned against their Socialist government and military war machine to end it proper. The karma is yours whether you choose to deny or know the truth. Then because American’s could not face that bloodshed on their hands cowardly blamed the soldiers instead! But ended the war and draft. The lowest of cowardly actions by American people was punishing US soldiers who were worst victims same as the nation of Vietnam that America supported from the go. We soldiers were punished in two ways: 1) we were drafted at gunpoint right out of high school into that war with a gun in our backs of violence of war held by ‘We the People’ and their socialist government. 2) We were blamed for doing their duty with two guns in our faces – one held to their backs by America and one in their faces held by a people defending their homeland against enemy invasion and occupation!!! The double bind or no win scenario. That is paradox driving soldiers mad in addition to neuro-poisons! Many soldiers self-destructed aka suicided in Vietnam to escape that no win situation and were held up as honorable sacrifices by a very sick US nation hiding the truth. The American people served as the state’s and industrial-military’s useful idiots focusing all blame and hostilities on victim scapegoats as distraction and red herring away from them as the true culprits and criminals! They profited very handsomely from that war using other people’s resources and kids. They still do. Americans were and remain too stupid to realize that they were blaming the wrong people who were the real victims and rewarding the true criminals behind the whole murderous felony against humanity!!! The nation will pay; it will be punished for its evildoing not because of it; Karma always comes as perfect cosmic justice. As one of the victims, I identify with the victimized scapegoats and totally blame the cowardly American people and their Socialist govt for FORCING schoolboys into that situation at all!! This was nothing new! The longest, bloodiest genocide known to human history against humanity or crimes against humanity occurred on US soil when the Native American Indians and buffalo were hunted to brink of extinction defending their homeland against enemy invasion, occupation of black and white illegal cristian immigrants since 1492!! Black nations were forced here a slave. The rest chose to do what they did as christian soldiers in the name of jesus. One of their cult church hymns rejoices that in song. How special. Then America blamed their victims as usual!!! You made us do it dirty red skinned people. They were the real victims just like US soldiers in the Vietnam War! Jane Fonda was another scapegoat with her War protesters trying to awaken the dumb-mass public to the realities of Vietnam War!!! All they knew of

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

it was off the 6 o'clock talking head on the tube. They all suffered for their sanity in asylum, Looney bin America!!! **This country and govt owe one hell of an apology to Ms. Fonda, her war protesters, and those like her! Ms. Jane Fonda's Sanity and her protesters had the guts to stand up to an insane Socialist country and its wage slaves totally in the wrong!** When a population does not support a war it is over for that side!!! A dishonor that remains half a century later spread by woke, US, PC Socialists and the media puppets to cover up their crimes perpetrating war crimes in Vietnam and all wars before and since then. How many of you know what US is doing in the Mideast? Out of laziness most don't care or look it up or see it when stumbled upon; if the talking head shills don't tell them they remain willfully stupid about it in total denial.

CHAPTER 32

Treason is our only name.

VSO's betray Vets of their due in toto. All Veteran org and VSO's *sell out people* they claim to help via unrewarded token pro bono representation as token lawyers are wont to do. In a form of divide and conquer selection, they cherry pick easy cases to grandstand and show off that they are fighting to win C&P cases, publicly justifying their realization and pathetic existence, while betraying the rest of us, overlooking the tough work for payoffs by VA to do so. What never comes in for review cannot be reviewed by VBA. VA handsomely rewards *these lap dogs* for doing so! The closed system excludes representation of real due process through tort and Constitutional judicial systems of law, which are not justice. It's always about law never justice to anyone, which is another Grande-lie of lies. Moreover, by fragmenting VSO's into so many protestant, self-interest chapters, instead of amassing into a cohesive political power block, they divide and conquer Veterans in toto in return for massive kickbacks, payoffs and under the table rewards for selling out the people they claim to represent and help. Betrayal pays them very well. These turds are worse than the most dishonest civil tort judicial systems!!! **These special interests focus only on acquiring political power and**

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

empire building using us as doormats and stepping-stones to do so as means to their self-serving end. They rest sucking the absolute bottom of sewer filth profiteering from veteran suffering, ignorance and suicide. Veterans are their worst enemies cooperating with that ruse. I too was one of their useful idiots to my demise until waking up to the scam. Too many backstabbing Aunt and Uncle Tim & Tom Vets look out for selves and let the rest suffer; their attitude is, 'hooray for me and to hell with you, I got mine, turkeys.' Veterans are profitable – invest your 'resource, families, sons and daughters' is the national anthem pledged by most all US Veteran help organizations and charities, which pays them well. Feed the war machine meat grinder that feeds us slothful and fat swine. The question that scatters them in a Tower of Babel: with so much help why every year in protest are Vets by tens of thousands suiciding, wasting away and dying from lack of it? 'Helping Veterans' pays the helping agencies very well while cheating Vets overall. For them helping vets is a strawman advertising bait, like click bait, it only fronts for their wholesale larceny. Essentially VSO's are court appointed 'free' snake oil lawyers. Worse really. **These birds do not chase ambulances They own them and the clap clinc,!!!** We must rely on VSO services that are simply VA lap dog extensions watching their feed dishes filled by a VA injustice system: abandon, betray, delay, deny – lots of denial – until one dies. Then send all evidence to the shredder, burn and bury the body, in a cheap paper box; charge GSA for a deluxe funeral, case closed – next! Free is what free does. Do not complain, Veterans; all of this is 'free' and you get what you pay for; so, do not bitch about your freebies – **when you will not fight and self-advocate or support those who do!** Every veteran I know who successfully got a disability award did so through a civilian lawyer back when it was possible. So laws were made to hamper that by our, bought-off, useful idiot legislator fools on capitol hill in D.C. However, before that it still took 10 –15 years of VA foot dragging to actually receive their due. Then VA re-denied it again and the process began anew. Some scam, eh? Justice? By then too many died, or were too sick and were simply waiting to die. **To people like us, money is of no value when fighting a fate worse than the mercy of death ending one's pain!!! When living is a fate worse than death...what is the damned point?** Like Rome's fall, when the Huns overrun the country we will be clapping for them not defending a burning Rome or legislator nutcases dancing on the roof; let it fall. VA-OIG is another toothless, paper lap dog intent upon monitoring its feed dish while claiming to serve ex-military personnel. After each bad act is known, the process is identical. First, media outlets publish an exclusive 'leaked' story. Then legislator Prim a-donna's screech that they are "horrificed and outraged" and "demand answers as cameo shots before cameras to look good at election time." Next comes yet another

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

perfunctory VA-OIG investigation that ends with “more training and increased oversight,” which never happens; case closed. But, not one recommendation for cleaning up the mess via redress, prosecution, termination or even demotions; just bury the evidence, ah, bodies and carry on – ad infinitum, ad nauseam. Business as usual resumes before the dust settles. **A great argument against government is to just take one look at the disasters created from almost everything it touches and aforewritten is epitome of that precept.** **The idiom that ‘Nero fiddled while Rome burned..’ is apropos here:** Legislators are just as buffoonish. While Veterans literally self-immolate and 'burn' in protest these fools ‘fiddle’ around making more laws, signing bills and other useless grab ass activities. Unless followed, all the legislated mandates in the world are worse than useless! Yet, our clueless lawmakers continue to legislate useless folly while Armed Forces personnel suffer and needlessly die. To its credit, youth catches on. And none of the Armed services are making enlistment quotas. The president's signature on legislation has yet to save one single ex or active duty Military person when his employees ignore and do not obey the law or do their jobs except to serve selves. We might as well have the 3-stooges running Congress and the White House for the entire good US elected looters do not for us.

CHAPTER 33

‘Squeak, squeak,’ said the lab rat, ‘more dioxin poisoned cheese, please?’

Most all active and ex Military personnel serve as expendable lab monkeys, along with dogs and cats now used with vets in cruel live animal experiments. You willfully stupid civilians, not to be left out, get a dose, too. Veterans used as lab monkeys to overcome healthcare worker ignorance and advance medical science. Forget ancient conspiracy theories such as MK–Ultra, and worse which are true BTW. The Nazi’s have a score to settle. Look at what is happening in your daily lives, America! Every GI soldier is removable, replaceable, alterable, and, EXPENDABLE. **So are you Amerika.** Look at all the immigrants flowing over

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

out open borders; they are your replacements; they work, are grateful and more. All you entitlement suckers do is scream more. Have you ever wondered why VA keeps us cloistered into that system and becomes nervous when we go outside of it? Probably not. When on active duty, per UCMJ – ‘Uniform Code of Military Justice,’ laws, if a soldier visited a civilian doctor without permission, s/he could be court-martialed and imprisoned unless it was an emergency and Military medical care was inaccessible. The reason had better be life threatening!! The reason was so civilian docs could not discover some mysterious things in a soldier’s body also affecting civilian patients that do not belong there. Government knows far more of what we were/are exposed to and what it put into us as human animal experiments during Military service than we do, and hides it well. The same toxins infecting you via the daily items you consume from food, prescriptions to bottled water to bath water. It fears civilian medical authorities finding this stuff and connecting the dots between our health problems, diseases, deaths, and those puzzling symptoms of sick citizen populations that are being exposed to the same chemicals toxins, infectious, emission agents and worse that we and claimed US ‘enemies’ are used to experiment upon. **Americans ingest this stuff through the daily items consumed in food, drinks, drugs even bottled and bath water, mandatory school, and public health vaccinations and medical facilities. US and foreign Military bases are the worst toxic-waste exposure offenders of all.** Just the drain off from them is deadly and what of those buried military toxic waste dumps worse than Love canal could imagine? Vietnam for instance, Agents Orange and Blue, also used in USA, which is dioxin in rainbow colors, Ebola and many more Bio-gen, bio-warfare and chemical agents, tactical nukes, buried toxic-waste, buried undetonated ordinance and worse; a legacy that is still crippling and **horribly killing those people and Veterans of that War.** Much of that stuff is stored, buried and used on US bases, too, which is running into civilian ground and underground water supplies killing them too! The substances current soldiers undergo in the Middle East are much nastier. A closer to home example is Treasure Island in California – not an amusement theme park but an ex-Naval base sold to developers that built hospitals, housing, schools, daycare, parks and more on that toxic reservation. An extremely toxic-waste site that is sickening and killing the island’s residents caused by buried poisons ranging from bio-chemicals to nuclear weapons refuse. US courts and lawmakers keep all litigation and redress stalled down until affected victims all sicken and die. But out of kindness to the lab rats they monitor sickness and disease progress to see how it kills you for their records. Research Treasure Island tip of the iceberg example in the US if it still exists. Police state internet censorship is removing things like that just as Orwell said it would in 1984. To keep the lab rats free from worry. What you don’t know

**DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION
STATEMENT.**

will sicken and kill you! **Moreover, American's consume these toxins daily from all food, drinks, and environmental exposures.** Globally, especially in USA, people today are sick and dying from diseases unheard of and unknown 50-60 years ago. American's are sicker and weaker than ever!!! For the coming coup d'état overthrow. Look at and around you! It's not all from fast food hamburgers!!! Vets are the medical coalmine canaries and with each death we have stopped singing the warnings you refuse to hear! When in VA hospital, I waited with 20 Vets from various wars lined up and down both sides of a corridor for an MRI of our internal organs, some bedridden strapped to mobile beds, others confined in wheelchairs, the rest of us sat in 'taxi' chairs. We all had fluid bags attached to drain tubes out of our bodies. Of the lot, only three were in my age range of late 60's and older. The rest were in 20's and very early 30's. I examined their excrement bags. I cannot describe what was draining out of the men *and women* into them: green, gray, milky, blood red, black as tar, and worse. Their insides were dissolving. It looked like their insides were dissolving into their bio-refuse drainage bags! I have never seen anything like that! I was fortunate – not lucky – a lucky person would not have been in that miserable place – my drainage bag only contained bloody, infected urine, collecting from a Foley catheter shoved up my urinary canal. This is what it felt like each time that was changed monthly: imagine someone shoving a stick of infected barbed wire size of a pencil up through that tiny hole in your 'tooter' into the bladder, twisting then yanking it out *once a month*. Bonus prize – constant untreated UTI. ***'Thank you for your service,' said the hospital scheduling clerk after making an appointment for next month's torture session that I had to drive 120 miles one way to undergo. I could no longer pee from total urinary system failure destroyed by toxic military exposures, which occurred gradually over decades, caused by toxic chemical and other exposures during military service. Same stuff that is slowly killing the rest of you Americans.*** Chronic pain, skin lesions, and other body filtering and regulating system failures and conditions are just some of the physical manifestations of what toxic exposures incubating over decades do to a human body. Skin is the 3rd kidney! The kidney-urinary system takes the worst beating after the body filtering system collecting all that poison as waste for disposal inside! ***Nothing records and plays back a life more accurately than the human mind and body.*** These are my golden years playing back; on **better** days, the only 'golden' is pee in a drainage bag, which collects voidance through a rubber tube inserted into my abdomen; however, on **good** days the cess-bag is full of bloody urine and worse. After over 40 years incubation period, VA was very interested in this lab rat body and effects of time from incubating diseases military caused in it; it tested, tested and tested more and even did extensive genetic, genome mapping

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

and other DNA examinations that required several weeks for results to return from a special lab. The doctor who discussed some of it with me kept mentioning genome mutations...and other genetic damage, vagaries. I do not know what they did to me while in service but the mutations are not good like in the *Xmen Sci-Fi* movie. Did you ever notice how movies give hints about uncommon things occurring now and hence? Movies look cool, real life is the reality nightmare.

CHAPTER 34

Quiet as a Church Mouse...

For a good education, visit, as a waiting room mouse, at any busy VA hospital, or clinic to just nonchalantly blend in, sit, listen and watch. The best editorial advice I ever got was: **‘when you don’t know what is going on or what you’re looking for just watch, sit back and watch with open eyes, open ears and mind recording everything.’** It’ll come to you! Pay attention to the number of derelicts and crippled parking lots which are your first clue; most of the spots are marked handicap only. Beware, two waiting areas exist: one out front and another hidden behind a wall of cipher locked doors. This gives an illusion of fewer people waiting for appointments. Staff is ever fearful that CNN or USA Today or other snoop, undercover journalists might be hanging around. AND THEY ARE! Worse for them still, is corporate undercover surveillance reporting back to the owners. Unless you have an appointment, only the outer chamber is accessible. That is enough. Unless you’re corporate intel. ***While waiting in Dallas regional recently, I overheard two frustrated VA medical employees standing in a side foyer discussing shop. One said to the other, “VA is another chance for Veterans to suffer and die for their country...” The other employee snorted agreement at the satire.*** Very dark, ugly, core problems exist in that government run Socialized Medical VA HMO. Until one undergoes the experience, s/he cannot understand what people tell and write about theirs. Same for Jewish experiences with Nazis. Incomprehensible without experiencing the horrors personally. It is unreal until one does so; then the nightmares become all too real. Whether a person is the direct or proxy subject does not matter. As aforewritten, even Dr. Mengele’s victims were aghast in shocked disbelief at what he inhumanely did to them as human lab monkey’s in Nazi death camp, live human

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

animal experiments. Meanwhile, [Japanese were doing the same in Unit 731](#); US gave them and Nazi's amnesty against conviction in exchange for their study data on live human lab rats. US does this too to general population, military, and in prisons and other hidden places like Gitmo, etc. One cannot imagine the full magnitude of a holocaust survivor's experience without undergoing that horror. Guess what you are, BTW. Nazi death camps, Japan's Unit 731, Nazi and American holocausts showed the world what humans are capable of doing to each other. One simply cannot fathom recounts of holocaust survivors from those camps crippled for life by remnants of such monstrous terrors! Moreover, for some Americans it is hard to imagine at all outside of a cinema horror movie, but that same scenario goes on in the US under guise of VA Socialized government run medicine. Add lab rat to all those funky letter behind your name. VA is a horrible warning to the USA! However, unless this country's capitalistic' medical ostrich's pulls their proverbial head from the sand and butt out the air, it will be completely nationalized into US-NHS very soon. Politics quickly denies, and claims, oh, that would never happen in America; famous last words; such arrogance also claimed the USS Titanic unsinkable... Leftist, socialist, FDR when signing Social Security Act in 1935 said, 'medical care is next.' The leftist 1965 Medicare Act consummated his prophecy, and creeping normalcy in a sleeping America is doing the rest expect NHS soon. All Editors are censors; they keep the truth from being published; they are the most powerful ruling masses of media and all it compasses. However, editorial opinion is moving underground and only surfaces when politically expedient, like when the left is Trump bashing as a bigger agenda the rabble don't notice. The leftists are behind the crimes, riots and worse in this nation not Trump. Research the Reichstag fire and phony Hitler assassination attempt during his reign when popularity faded to rebind public behind him. Nothing is by accident or coincidence when it comes to politics said FDR. It's intentional and planned for a reason.

CHAPTER 35

Mr. Obama's and AARP's Treason to US Senior Citizens.

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

Thanks to Obamacare or ACA, millions of senior citizens and other Americans found selves in a black hole of unobtainable & unaffordable medical insurance and therefore no healthcare at the worst possible time of life. The systems we used and depended upon were destroyed by Obama's actions leaving us stranded. That too was planned said FDR. Most young people do not think about that until it strikes them in late stages of physical decline and old age wasteland undergoing dying and death. Which grows younger by the generation. Our fate can happen to anyone in blink of an eye, which is by design. Only a fool believes our health problems are lifestyle driven; some perhaps may be aggravated by daily excesses of alcohol or tobacco but most are on purpose same as what happens to any experimental lab monkey. You are sick and don't yet know it!!! Doubt that: HCV in anyone born in USA between years 1945–1965. An on purpose invisible 'Bio-virus' research project to monitor how it spread through populations and through medical ignorance that remained medically undetectable until 1991 when the disease became publicly, medically detectable and a basic test for it appeared without treatment or cure. I believe the vector was school shots required of all kids attending mandatory public school. The second was medical ignorance and incompetence mishandling blood product and other medical procedures; similar to infection killing wounded soldiers in US Civil War. More died of that and feral pig attacks gutting of the wounded left on battlefields after dark than those who died from war itself. Hogs eat anything a wounded dying human is an open invitation to them to feast. Ambrose Bierce was a war correspondant in Civil War and wrote much about the horrors. You won't find it in Johnny comes marching home whitewashed US propaganda publications. Infections by forced public school vaxx, parents had no choice but allow it or face prison and losing kids to authorities who would force vacs onto kids anyway. **Like they do today** with all the experimental drugs given to kids by the system for diseases that don't exist except in the minds of school bureaucrats and big Pharma. Public school and our kids are human lab rat research facilities. US propaganda lies persist though. Like AIDS and HIV, contracted in the 40's and 50's. Don't tell me sex maniacs and IV drug users or that it passed through one's parents are causes of having the diseases that did not officially exist back then unless govt secretly made them to test on children lab rats. Mandatory school and public health vaccinations and annual Flu vac's among other vectors spread it!!! Throughout history, medical ignorance did more to spread these infectious viruses than any other single cause! My favorite fairy tale for HIV is that "some horny African caught the virus screwing monkeys; then passed it on to the Homosexual community when he could not find any more monkeys" I swear, when HIV first became public in the 1980's US newspapers

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

actually published that theory as reason – and stupid Americans believed it!!! The homosexual community became quite angry at the stigma and out of revenge began sexually spreading it among the heterosexual communities and via blood donor centers before they tightened screening requirements after tests for the unknown virus became available to them. Until then infected blood products infected many an innocent person from ignorance and negligence. Before then, if you bleed blood centers would accept you. I was not born in 1945 and only 10 years old in 1965. My parents wore chastity belts before, during, and after their wedding! IV drug use was unknown; they did not even drink alcohol and grandma chaperoned their honeymoon! She was no voyeur! Premarital sex and pregnancy was virtually unknown in USA but for loose women! Those were strict social morality mores in America during that era. The first institutional medical care mom got was in an Army dispensary when pregnant with me. If it passed through her, there is where she and I got it! VA claimed I was born between 1945-1965 and had it. The real reason it treated this non-existent condition is Congress awarded VA 60 million dollars to do so. Treat someone who does not have it and Voila its a miracle sweet Jesus, he is cured!!! Pay up congress; VA ran a similar scam during covid hoax making millions, too. They had placed grease board charts next to all hospital and clinic entrances boasting a 98.5% cure rate...easy to do if someone is not sick when treated in the first place! VA does a lot of that sucking the taxpayer \$ugar tit. When asked about the shot guns used to vaccinate 2000 soldiers in an afternoon spreading these diseases, VA goes mum and changes the subject. Those shot guns were banned after discovery spreading disease was a big problem when we were forced to get vaccinated. In military it's not optional but mandatory. Feres protected govt and military for any liability from its gross negligence. Yet, American public and some medical doctors are so stupid to believe immoral stigma propagated via propaganda is responsible for creating HCV and the spread of it! Especially that sleazy african/monkey theory aforewritten. **Medical industry ignorance is the primary vector spreading diseases in the US and all this gov't gossip borne fake news is to cover up that fact.** Boning monkeys is one of them. Unsanitary civilian and Military medical and dental facility conditions, especially at VA, careless mishandling of unscreened, contaminated blood products, reusing improperly cleaned syringes, improper tool cleaning, shot-injection guns in military using the same dirty needle to vaccinate 2000 troops in an afternoon while spreading more infectious diseases than Hooter Brown can count. When news of that leaked out these were quickly outlawed and covered up well after the damage was done to stop liability; aforementioned and more were and remain primary vectors spreading HCV and similar blood borne diseases like HCV. Lack of employee sanitary conditions in VA facilities is main

DELAY, DENY, LIE UNTIL THEY ALL SUFFER TO DIE IS VA MISSION STATEMENT.

vector there. Not from all the sleazy fake news reasons pumped out of the Socialist lame-mass media propaganda mill. Moreover, do you really know what is in those shots, tablets, pills, capsules, and potions medically administered to you and your family? Or the prototype, experimental Covid virus inoculations? Covid is the largest human animal hoax since organized religion raking in trillions off true believer stupid people. Al Gore and his minions were small change in the global warming hoax that precursed Covid!! Military used injection guns to assembly line vaccinate a thousand GI's at two thousand shots per day with one corpsman hitting each arm. Essentially, they used the same syringe on all of us! Whatever infected every person before me in the shot line, now I am exposed or have it too! Ditto for everyone after me. Hygiene? Maybe wiping off blood and body fluids caked on the end cap after every hundred injections if that often, and I question seriously how clean were the guns when returned to storage between shot cycles; about as clean as reused syringes were back before disposables arrived and shot guns banned from use. In 1979, these were still in use administering mandatory Flu and other prototype vaccinations to the entire squadron in a single afternoon. These shots were not optional. Anyone who resisted without a valid medical reason was physically **forced** to take the shots. As with any lab-monkey, I have no clue what was really in those injections but someone does!! Get the picture? Military stopped giving swine flu shots to civilian dependents and contractors after killing a few of them. Soldiers are expendable we still had to get the shot. Sometime after my discharge, authorities banned these devices and fearing lawsuits, censored legal 'discovery' about them that they were doing far more harm than good transmitting blood borne and other pathogens from sick to otherwise healthy people! The lawyers are paid to keep quiet and the crimes go on. Furthermore, eventually all evidence of such crime dies with each passing generation, and populations would rather believe fake news gossip and stigma before accepting truth. Does any of this smack of the current, ongoing COVID jab fiasco civilians undergo? Please see WW2 ['unit 731' especially the USA's involvement.](#) 'Squeak, squeak, may I have more poisoned cheese,' said the human lab rats! We seniors and Veterans supported America and the nation's institutions most all of our lives, obeyed what was expected of us by society, culture and this country while unknowingly serving as human medical research animals and then were abandoned, betrayed and dumped into the ageism dustbin as ill, useless eaters by US Socialists and their cronies such as AARP. Youth can expect much worse as wore out slaves in their coming years, too. Sure, for PR and public display government rushed in with useless Dark Horse measures such as Obamacare to medically insure certain Medicaid classes had care shifting those costs to state budgets that we as taxpayers paid for masking what we underwent...in the two-

step socialization dance continuing what it began with Leftist LBJ's passage of the 1965 Medicare Insurance Act FDR started in 1935: Socialized, rationed, government run medical Insurance!!! However, Socialist medicine as did Capitalist medicine left a gap where tens of millions of us fell through the cracks – uninsured and uninsurable. Two women I know managed care through local tax supported county hospital, to which I have paid dues since 1974; I made too much income and faced poverty in sickness to get the same care, or just die and get this over. I chose death. Income tax is communist and consequences are far more than most understand or are willing to accept until you face them. How many more have done so in the USA, which **boasts** the highest living standard, and other avant – garde, grandiose arrogant claims while neglecting its most vulnerable: kids, Vets and elderly. One can consider much about a nation in how it mistreats the former classes of people: ***US – you grade a 'shithole, minus- minus.'*** The world agrees viewing US as a laughing stock bad joke in these areas of social *devolution*. North Korean government got it right criticizing Obama's abysmal US medical care system, which symbolizes the jackboot of US National Socialism or Nazism. Biden his second wiper is far worse. WW2 did not defeat Nazis; that slime spawned into America and set up cesspool corporations as VA & BIA to continue its evil. **This nation can build trillion dollar weapon systems but not care for the citizens it robs with which to do so?** I watched a several hundred-billion-dollar super secure, special purpose, government building, constructed in the 1980's during the Cold War to build super secret ATF and A12 stealth fighters literally torn down in 2017 from disuse. Nobody would buy it. Therefore, government demolished the structures and the land remains for sale. Hundreds of billions of dollars in cobble. I would say USA has some very demented values and priorities neglecting human welfare of its citizens. Money for society not defense is only USA lip service. War is great business; invest your son's and daughters; she'll be the next draft fodder at 'the end of men.'

A note about backstabbing Aunt Tim and Uncle Tom, Judas, Vet VA employees – one cannot serve two owners. This type company person misleads and cuts any naive Veteran's throat for a percentage of the loot that denies a claim. Much like the VSO's are doing; in other words, the flying monkey, useful-idiot, company man or woman sells out the unsuspecting for personal gain or perhaps just for the hell of it, while posing as a trusted confidant. Aunt Tim's & uncle Tom's are the very worst, in my opinion. Not all Vets who work there are of this ilk; some are good people just earning a living not a name or fame. They are simply doing a job as means to an end, and reason why VA works at all. The fear their criminal coworkers. Where possible, they do risk helping struggling Vets trying to meet needs in a system designed to deny them in toto. Some have taken me off premises,

in a POV, or to secure areas without eyes, ears, or surveillance and say 'you did not hear this from me,' or 'I cannot tell you this as a VA employee but can do so Veteran to Veteran.' Then provide tribal knowledge and kindred POC's to get what I needed that was being withheld or rationed by self-rewarding bureaucracy. A VA employee underground as it were exists to undermine the corrupt system; injustice dissent always moves underground; it brought down the Nazi empire as it does the American empire. I am alive only because of that bond which exists between some of us forged by military sages who taught soldiers the basic rule of 'take care of each other because that is all you got.' These employees must protect their personal interests but do help other Veterans when safely possible. Kind of like Jewish and black slave sympathizers in Nazi Germany and America who ran the 'underground railroads.' The paranoia and fear in that place is suffocating. Nobody trusts each other and Vets are fools to do so! Nothing is safe in there or with them. The place is that paranoid and toxic. This is what you can expect from a US NHS like Great Britain's failing system. I am frank and say what I mean and mean what I say without reservation. What are they going to do? Make me a sick, dying old man and take away my last birthday? Pull a ticket and get in line, assholes. There is peaceful freedom in knowing when one is already dead with nothing more to lose. You can shoot and eat this tough old bird only once. **What I never understood is, what are people thinking when screwing over everyone else for percentages of the take, action or loot only to forfeit everything making the final trip out of here, in a decorated box, covered with flowers, riding in the back of a black limousine – and then spending eternity forgotten in a grave yard, rotting into dust ENCHAINED to all that baggage. If that is what life's about, what is the point of living! What matters?**
